Salads

(Baby Corncobs)

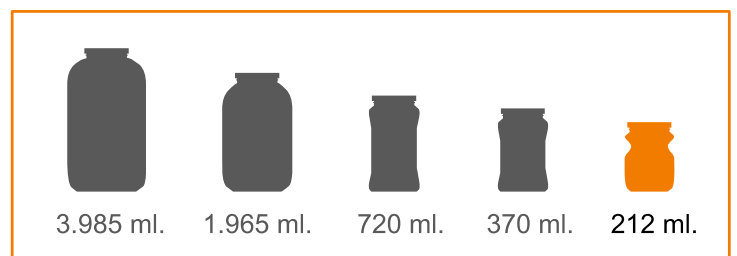

Originally from America, where they were grown by the indigenous people, this herbaceous gramineae plant was brought to Europe by the Spanish conquistadors.

At Rioverde we bottle the “baby” variety, adding a sweet and sour dressing to gives them a special, distinguishing taste and aroma, as the natural baby corn cob does not have any flavour.

Our Baby Corncobs are ideal for accompanying any kind of salad as well as for using in canapés and cold dishes.

Ingredients: baby corncobs, vinegar, sugar, salt, acidity regulator (E-330), antioxidants (E-300, E-220)
